This collection of information is required by 37 CFR 1.378(b). The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 8 hours to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Mail Stop Petition, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

8. SHOWING

The enclosed statement will show that the delay in timely payment of the maintenance fee was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that this petition is being filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The statement must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which the patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

9. PETITIONER(S) REQUESTS THAT THE DELAYED PAYMENT OF THE MAINTENANCE FEE BE ACCEPTED AND THE PATENT REINSTATED.

OFFICE OF PETITIONSACCEPTANCE OF DELAYED PAYMENT OF MAINTENANCE FEE IN EXPIRED
PATENT TO REINSTATE PATENT UNDER 37 CFR 1.378(b)

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Included with this Petition is the required maintenance fee set forth in § 1.20 (e)-(g) of \$490;

(2) the surcharge set forth in § 1.20(i)(1) of \$700; and

2789264v1

Patent No.: 6,212,255
Issue Date: April 3, 2001

2

Docket No.: 25666.3.8401

(3) a showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent.

The above-identified application became abandoned for failure to file a timely maintenance fee as of April 3, 2004. Patentee hereby petitions the Commissioner for revival of the above-identified patent.

The last communication received from the U.S. Patent and Trademark Office according to the USPTO website was October 20, 2004, according to the PTO electronic fee website. A print out of the Bibliographic Data Sheet is attached hereto. Neither Patentee nor their prosecution counsel, Leo Auble, have any record, or recollection, of having received this notice.

Patentee and Counsel for Patentee each attest to the following. Leo Auble, was the designated mail recipient for the above-identified patent. Mr. Auble has no record of receiving the October 20, 2004 mailing from the PTO, and it is Mr. Auble's standard practice to maintain such records. Patentee and Mr. Auble also have the standard practice, whereby Mr. Auble notifies the Patentee and receives money from Patentee for paying the fees such as the missed maintenance fee payment. Patentee has no record of receiving such notice, nor indicating payment, nor an indication in bank records that such instruction was given. Neither Patentee nor Mr. Auble have any record or recollection of receiving the October 20, 2004 mailing.

The first indication to Patentee that the Patent had gone abandon was in a pleading in federal court in which a licensee of the Patent claimed a breach for the Patent having gone abandon. Litigation counsel for Patentee, Arnall Golden Gregory LLP, received notice of the complaint on April 8, 2010. Since that time, Litigation counsel, Patentee, and Mr. Auble, have verified the issues, identified the needed records, searched for the needed records, analyzed the needed records, produced the affidavits, and responded herein. No delay occurred in taking this action.

2789264v1

Patent No.: 6,212,255
Issue Date: April 3, 2001

3

Docket No.: 25666.3.8401

An adequate showing of the cause of the delay, and that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition under 37 CFR 1.378(b) was unavoidable is believed to have been provided herein.

Please charge our Deposit Account No. 50-4667 in the amount of \$1,190.00 covering the fee set forth in 37 CFR 1.20(i)(1).

Declarations of David E. Huizenga of the law firm of Arnall Golden & Gregory, LLP, Leo Auble, and Randol Kirk are being filed concurrently herewith in support of Patentee's Petition.

The reasons for the unavoidable delay, as fully set forth in the accompanying Declarations, as well as herein, provide adequate basis for the revival of the above-identified Patent.

The Director is hereby authorized to charge any deficiency in the fees filed, asserted to be filed or which should have been filed herewith (or with any paper hereafter filed in this application by this firm) to our Deposit Account No. 50-4667, under Order No. 25666.3.8401.

Dated: April 20, 2010

Respectfully submitted,

By:

Assistant Commissioner for Patents
Washington, D.C. 20231

DECLARATION BY RANDOL E. KIRK

Sir:

I, Randol E Kirk, hereby declare that:

1. I am the patent holder and CEO of Rad Source Technologies Inc., the Assignee of US Patent No: 6,212,255, SYSTEM FOR IRRADIATION OF BLOOD.

2. My role with the above-mentioned patent was to approve and issue payment for renewal of the Patent. In accordance with the practice of Mr. Leo Aubel, our patent attorney, we established a method for payment of fees surrounding certain patents I and Rad Source hold. The method of payment was a check drawn on First Southern Bank until 2004 and Suntrust Bank thereafter. We have payment trails for payments both before and after the renewal transaction date of 6,212,255. Copies of these payments are attached to my Declaration. However, no specific information of any sort is available for the period from April, 2004 to July, 2006. The patent had been licensed in 2003 and I have not had notice of the fact that this patent went abandon until Arnall Golden Gregory, LLP contacted me on April 9th. I have personally

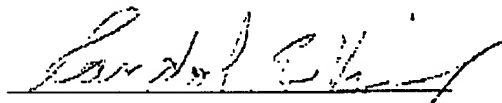

U.S. Patent No. 6,212,255

Issued: Apr. 3, 2001

DECLARATION OF RANDOL KIRK

reviewed all records pertaining to intellectual property of mine and Rad Source, and I have specifically checked our records relating to the USPTO and from Mr. Aubel. I have no records pertaining to any transaction regarding patent 6,212,255 after our instructions for payment of the issue fee. Neither I, nor my staff, have any recollection of receiving anything related to the maintenance fee transaction or a need for payment, but it was our practice when we received such information to instruct payment. I have followed this process for payment with other patents in my and Rad Source's name.

I declare that all statements made herein of my own knowledge and belief are true and that all statements made on information and belief are believed to be true, and further, that the statements are made with the knowledge that willful false statements are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Mr. Will Hartman, CFO
RadSource, Inc.
475 Ramblewood Dr., Suite 207
Coral Springs, FL 33071

Fax (954) 755-5306

Dear Will:

Per your request, this is a brief overview of our current patent activity. Please show this to Randy, for his review and/ or correction.

- A. System for X-ray Irradiation of Blood-- Randol E. Kirk, inventor
Utility Application filed on 08/26/99, Ser. No. 09/385226
We should be hearing from U.S. Patent Office shortly.
- B. Low Energy On Line Irradiator System--Randol E. Kirk, inventor
Provisional Application filed on 05/03/00 Ser. No. 60/201480
Utility application due by 05/03/01.
- C. Linear X-ray Source (Long Tube)-Daniel F. Gorzen & Randol E. Kirk, inventors.
Provisional application filed in 12/07/98. Utility application was due by 12/07/99--after various rewriting, and re-evaluation etc., it was determined that invention was not developed sufficiently to warrant filing either utility application or supplemental provisional application..
- D. Low Energy On Line Irradiator With Swept Electron Beam--
Randol E. Kirk, inventor
Provisional Appl. filed on 06/12/00. Ser. No. 60/210994. Utility application due by 05/12/01.
- E. X-ray Reflector System-- Randol E. Kirk & Gueorgui Gueorguiev, inventors.
Provisional Appl. version one, prepared, not filed
Provisional Appl. version two, prepared, not filed
- F. X-Ray Reflector System With Low X, High Density Material
(Boron Carbide Reflector as the Preferred Embodiment)-- Gueorgui Gueorguiev, inventor. This invention is a evolution of item E., above.
Utility Application is prepared, is under review by Randy and Georgi; to be filed by Nov. 1, 2000. A corresponding patent application is to be filed in Euro countries (filing in U.S. protects rights in Euro for one year period).

Washington, D.C. 20231DECLARATION BY LEO J. AUBEL
Under 37 CFR 1.132

Sir:

I, Leo J. Aubel, hereby declare that:

1. I am a patent attorney residing at 111 Rivershire Lane in Lincolnshire, Illinois.
2. My role with the subject US Patent 6,212,255 was that I prepared and prosecuted the patent application that issued to Randol E. Kirk as said Patent No. 6,212,255. I also prepared and prosecuted the patent application that issued as US Patent No. 6,614,876, also issued to Randol E. Kirk, that improved on, and superseded the subject matter of Patent No. 6,212,255.

I declare that all statements made herein of my own knowledge and belief are true and that all statements made on information and belief are believed to be true, and further, that the statements are made with the knowledge that willful false statements are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Leo J. Aubel

DECLARATION BY DAVID E. HUIZENGA

Sir:

I, David E. Huizenga, hereby declare that:

1. I am an attorney at Arnall Golden Gregory LLP, with USPTO Registration No. 49,026.
2. My role with the above-mentioned patent was to review the issues surrounding notice regarding an "expired patent," and to coordinate production of the Petition for Revival and supporting documents.
3. I was notified by Scott Taylor, a litigation partner in my firm, that an amended complaint was noticed to us on April 8, 2010 in Case No. 09-61652-Gold/McAliley in United States District Court for the Southern District of Florida between MDS (Canada) Inc. et al. and Rad Source Technologies, Inc. After review, Scott Taylor contacted me on April 9, 2010, and I began searching for which patent may be referenced in the complaint. On Friday April 10, 2010, we identified patent 6,212,255 as a patent which we believed to be unexpired, but realized it had

U.S. Patent No.: 6,212,255
Issue Date: April 3, 2001
DECLARATION UNDER 37 C.F.R. § 1.132

apparently expired. I then began directing the collection of information regarding the patent between Georgia, where the records of Rad Source Inc. are kept, New Mexico, where Randol Kirk, the inventor lives, and where Leo Able, the prosecuting patent attorney lives. I directed the production of the Petition to Revive and the corresponding attachments, diligently each day since being notified, until the filing of the Petition.

I declare that all statements made herein of my own knowledge and belief are true and that all statements made on information and belief are believed to be true, and further, that the statements are made with the knowledge that willful false statements are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Date: April 20, 2010
